ATTENTION STUDENTS WHO SEEK TO TAKE ACCTG 211

Those of you who either choose to take ACCTG 211 or need to take it for your major (especially EBF) please pay close attention. ACCTG 211 is a controlled course in the fall but NOT in the spring semester. If you want or need to take this course, you should really consider taking it in the spring. In the fall, it is controlled for students who are entering majors in the Smeal College of Business and the chances that any seats will be open when controls are released just one week before classes is very low. Additionally, please be aware, that no matter what section of ACCTG 211 you register for (web only, hybrid, courses with extra in-class recitation), you are
free to attend the course however you choose. If you sign up for an in-class section and want to take just web, you can do that. If you sign up for a hybrid or web only, but want to go to extra in-person sections, you can do that. It is most important that you get a seat in some section of the course. If you have questions, please see your faculty adviser or one of the professional advisers in the student center.

Imagine the parkscapes of the future. What is the changing role of conservation in society? In this course, we study parks and protected areas—both in the U.S. and abroad—as frameworks for exploring themes of sustainability, conservation, and socio-ecological systems. We examine exemplary national and international parkscapes, or parks and protected areas embedded within complex landscapes, to tell the stories of evolving conservation attitudes. These stories will help explain the historical, transitioning, and future roles of conservation in societies shaped by local (and global) change. For more information, contact Dr. Erica Smithwick - eus17@psu.edu
### 2014 Stand Up Awards Nominations

Faculty, staff, students, and community members at any Penn State campus are invited to nominate undergraduate students who are ethical leaders and have accomplished much during their time at Penn State. The goal of the award is to recognize courageous individuals and to inform the entire Penn State community of how often the extraordinary act is possible in ordinary circumstances.

Selected honorees will receive an award of $1,000 each, be recognized at a Spring 2014 ceremony (also in a short video), and be highlighted in traditional & digital publicity throughout the University.
